COMPETITION

Very few competitors are in this space and they all have a limited focus. This software was designed to combine server management with hosting management providing an easy to use interface for customers to manage both. As the first control panel to offer support for a variety of tech stacks with its newly released version, this software is unique in the industry and has a huge advantage over competitors.

GROWTH & EXPANSION

This business is perfectly positioned to be scaled to its potential. Some ideas for future growth include: Start charging per server and per application, increase paid marketing, and provide managed hosting.
